HEALTH HAZARD INFORMATION

| ROUTE | EFFECTS |
|-----------------|--------------------------------------------------------------------------------|
| INHALATION | Not applicable. |
| EYE CONTACT | Temporary irritation. |
| SKIN CONTACT | Most colours may cause temporary irritation. |
| SKIN ABSORPTION | Not applicable. |
| INGESTION | Not considered to represent a significant health hazard. May cause discomfort. |

HANDLING PRECAUTIONS

Avoid prolonged contact with skin. Do not eat, smoke or drink whilst handling these products

EMERGENCY & FIRE FIGHTING DATA

Flash point exceeds 230 ° C. Use dry powder or foam extinguishers. Do not use water because this may boil explosively or may float the burning oil and thus spread the fire. If heated over 250°C colours will decompose to give complex mixture of aldehydes, lactones and ketones, notably acrolein.

SPILLAGE CLEAN UP & DISPOSAL PROCEDURE

Contain the spill with sand or earth. Spray the earth with water to avoid spontaneous combustion. Any rags should be soaked in water for 5 minutes and then placed in a flat bin. Dispose of in accordance with local regulations.

FIRST AID

| | |
|--------------|-----------------------------------------------------------------------------------------------------------|
| INHALATION | Not applicable. |
| EYE CONTACT | Flush eyes with plenty of water for at least ten minutes. If irritation persists, seek medical attention. |
| SKIN CONTACT | Wash area affected with plenty of soap and water. If irritation persists seek medical attention. |
| INGESTION | Do not induce vomiting. Flush mouth with clean water. Seek medical attention. |

STORAGE INSTRUCTIONS

Store at room temperature in closed containers.

ADDITIONAL INFORMATION

From September 1995 Flesh Tint, Naples Yellow and Chrome Colours do not contain lead pigments. See separate Product Safety Data Sheet for Flake White conforming to Directive 91/155/EEC.

DATE PREPARED : 7th August 1996
